

## Minutes of club meeting March 2023

34 members present Meeting start at 8.00pm

1. 150 Members joined
2. BMFA scale event on 30 April
3. Round the world challenge 1<sup>st</sup> to 9<sup>th</sup> July
4. After last months talk, some questions arose:- Separation distances of uninvolved/involved/assembly. If under 7.5 Kg can't fly within 30 metres of an assembly (assembly means they can't get away). Uninvolved means they know nothing about us. Involved is if you have explained what is happening. Within is a 30 mt hemisphere over them. Can be reduced to 15 Mt for take off & landing. Over 7.5 Kg distance is 50 mt of an assembly.
